AusHSI
Bringing health innovation to life

Knowledge Translation Workshop
20 November 2018, QUT Gardens Point

Facilitators: Dr Roman Kislov, Professor Gill Harvey, Adj Professor Alison Mudge,
                Professor Ian Graham, Adjunct Professor John Wakefield
MC: Megan Campbell

What is this "Knowledge Translation" you all speak of, and how can it help me?

AusHSI can help you answer these questions if you join us and our Australian, Canadian and UK experts for this one-day interactive workshop in November.

Other questions you might have answered on the day:

- How do I prove that our current practice isn't the best? And how do I find a better way?
- How can "Implementation Science" be helpful to me when I just want to improve the practice in my hospital?
- How do I choose a theory or framework that will help with my project?
- How do I convince my executive how important my project is?
- How do I get anything done within Queensland Health?

Intended audience: The workshop is designed for health professionals with an interest in practice improvement, who want to learn more about Knowledge Translation, Implementation Science and how these emerging disciplines can help sustainably implement evidence-based changes in the health system. The day will be interactive and led by the needs of those in the room.

Program

Time	Speaker	Session
8:30 - 9:00	Megan Campbell	Arrival/Welcome
9:00 - 9:30	Adj Prof Alison Mudge	Talk: "Evidence gap" – quantifying your problem (are you sure you have a problem? How do you know?), finding an evidence-based solution.
9:30 - 11:00	Dr Roman Kislov	Interactive session: Applying theory to practice: Boundaries, knowledge brokers and effective
11:00 - 11:15	Morning Tea	
11:15 - 12:45	Prof Gill Harvey	Interactive session: Making sense of implementation theories, frameworks and models.
12:45 - 1:30	Lunch	
1:30 - 3:00	Prof Ian Graham	Interactive session: Dissecting a Knowledge Translation Project into Manageable Components for Optimal Impact.
3:00 - 3:45	Adj Prof John Wakefield	Talk + Q&A from audience: Sustainability, scalability in a health system like QH. What can QH do to help?
3:45 - 4:00	Break	
4:00 - 4:45	Panel – all speakers	Open discussion, Q&A from Audience
4:45 - 5:00	Megan Campbell	Thanks and Close
